We do what we are committed to do, and we do it in the utmost care with the highest possible quality. We execute a new EIA project for each client using a project, program, and portfolio management style depending on the size and complexity of the task. We do not copy-approach to save time, money, and efforts. We have selected the most practical and useful tools, frameworks, and processes that are suitable for EIA projects.

Adjusting and developing the available and the most practical tools, frameworks and processes is one of our techniques to ensure the success of EIA projects.

EIA (i.e., Impact Assessment Ltd. Corporation) is a consulting firm in the field of environmental management consultancy. EIA is specialized in making environmental impact assessment (EIA) services to its clients. Since the establishment, EIA has limited itself to produce only one type of consulting services (i.e., EIA service).

This high-specialization leads us to focus on our business to maintain quality in our services, to increase creativity in our methods and techniques, and to integrate with other businesses. The name of the firm comes from the service that we provide. “EIA produces EIA services”.

Vision:
A sequence series of seven visions

1st Vision 2020: To lead a booming in the profession of EIA at the national level.

7th Vision 2117: To be the future generations’ flag that enlightening the profession of EIA… the high-standards of quality…the stem of tradition… the prestigious brand-name.

Mission
To redefine & reinvent the modern principles and practices of the perfect execution of EIA for the sake of human good.

Strategy:
“Concentrated-focus in Specialty & Unique Execution Framework”

Concentrated-focus and high-specialty in one type of environmental consulting services (which is EIA services).

EIA Strategic Execution Framework: We conduct EIA services in our own developed unique style. It is a combination of four elements. The details of these four elements are know-how protected.

- Unique networks of collaborations
- Developed Framework of EIA execution
- Developed a series of EIA Execution Processes & Mechanisms
- Innovative Overall Impact Assessment Model.

Scope of Work:
We are here for all of those who need environmental impact assessment (EIA) services. We commit ourselves to this single profession (EIA services), and we are not going to do any other environmental consulting services. All the other services are considered out of our scope of work.
